CADRY'S
— 1952 —
CONTRACT

INCREDIBLE TEXTURE

METALLIC COLOURS

STAIN AND FADE RESISTANT

DESIGN WITH PRECISION SCUPLTING

Forget boring cut pile, Cadrys Contract Hospitality carpet lifts traditional carpet to the level it demands – where full custom design and construction capabilities can combine cut, multi-level high loop and low loop to provide a hand-crafted feel and sculptured aesthetic.

CARPET WITH A TRULY DIMENSIONAL PRESENCE

Only Cadrys Contract Hospitality carpet allows you to incorporate exquisite rich gold, silver, copper and bronze metallic yarns into every design. The result is a carpet that brings pattern and visual effects to life, at no additional cost.

CLEAN WITHOUT COMPROMISE

Maintaining hospitality carpet has never been easier with Cadrys Hospitality collection being produced from 100% solution dyed nylon. This yarn system is the most effective in the flooring market for both stain maintenance and fade resistance. This is due to the colour being added when the yarn is still in a liquid state – the colour is inherently part of the yarns make-up. Difficult stains such as coffee and wines can be treated with aggressive spot cleaners without damaging the look or integrity of the carpet.

Additionally, Solution-Dyed Nylon is made as one continuous staple yarn and is not susceptible to fluffing, shedding and breakage when vacuuming or spot cleaning – making SDN the best choice.

REDUCE WASTE AND SAVE MORE

Waste in carpet project installations can significantly impact bottom line and carbon footprint due to the inefficiency of fixed carpet widths. This can also lead to excessive broadloom joins and compromise performance as these areas are the first to break-down in application.

Cadrys Contract Hospitality carpet is crafted with this issue in mind and offers greater value and sustainability with loom widths starting from the standard 3.66m, to extra wide 4.57m and any other size in between. This design flexibility and cost benefit will drastically reduce waste by eliminating extra carpet joins in larger areas as well as no capped doorways for corridor installations.

OUR COMMITMENT

With hundreds of running lines, all Cadrys Contract Hospitality carpets have no minimum quantities and meet the BCA fire requirements of AS ISO 9239. We also warrant our carpet for commercial use against excessive surface wear for a period of 10 years.

Whether you are looking for the right pattern or want to create a custom design, start your hospitality flooring solution today with Cadrys Contract.

More than just design and colour.

Product Guide

Our Hospitality Carpet is available in Dynamics, Element, Intrepid, Legacy, Vivid, Infinity, Colorpoint and CYP constructions. Each product type utilizes a different manufacturing process which can yield variations in colour and texture. Please refer to the guide below for information on the variables of each construction.

Dynamics 32

CONSTRUCTION	Tip Shear Cut & Loop
PILE FIBRE	100% Solution Dyed Nylon
TUFTS GAUGE	1/10th
PILE WEIGHT	32oz
LOOM WIDTH	366cm to 457cm
BACKING	Actionbac
APPLICATION	Moderate Hospitality
