33 COLOURS

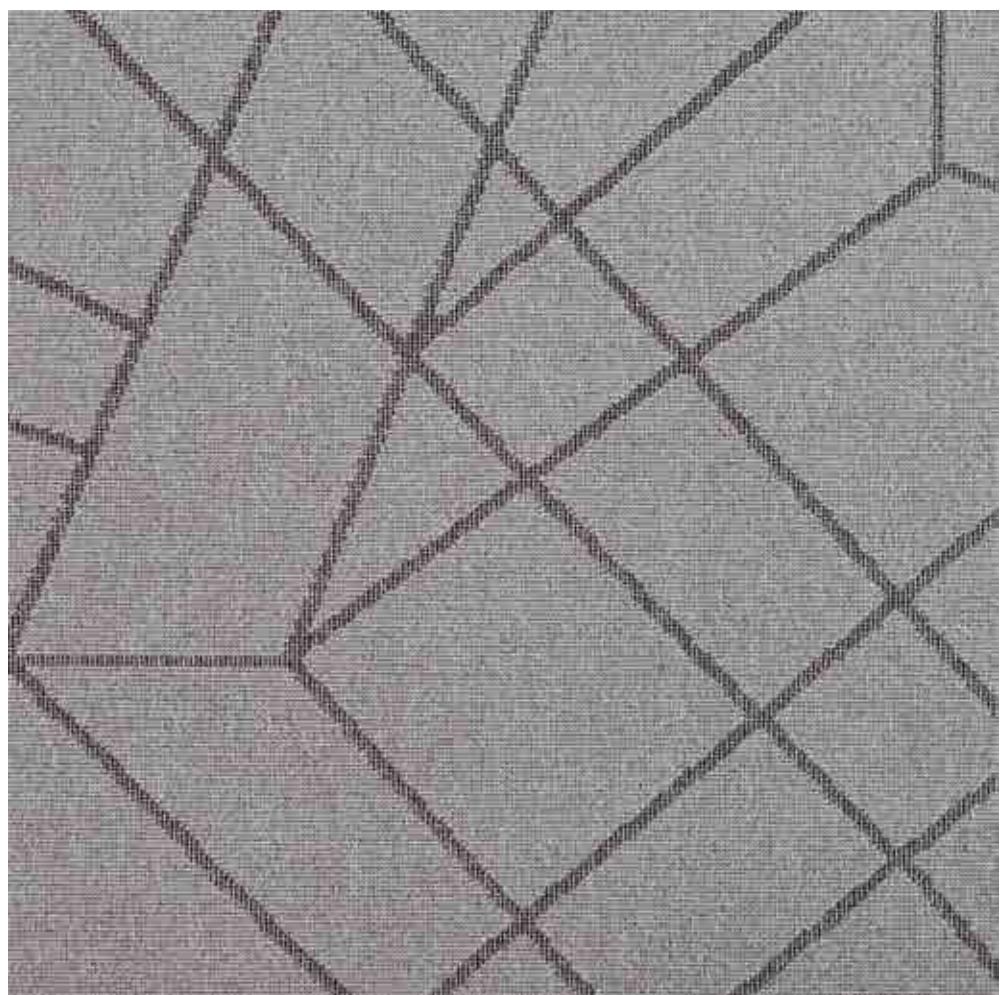

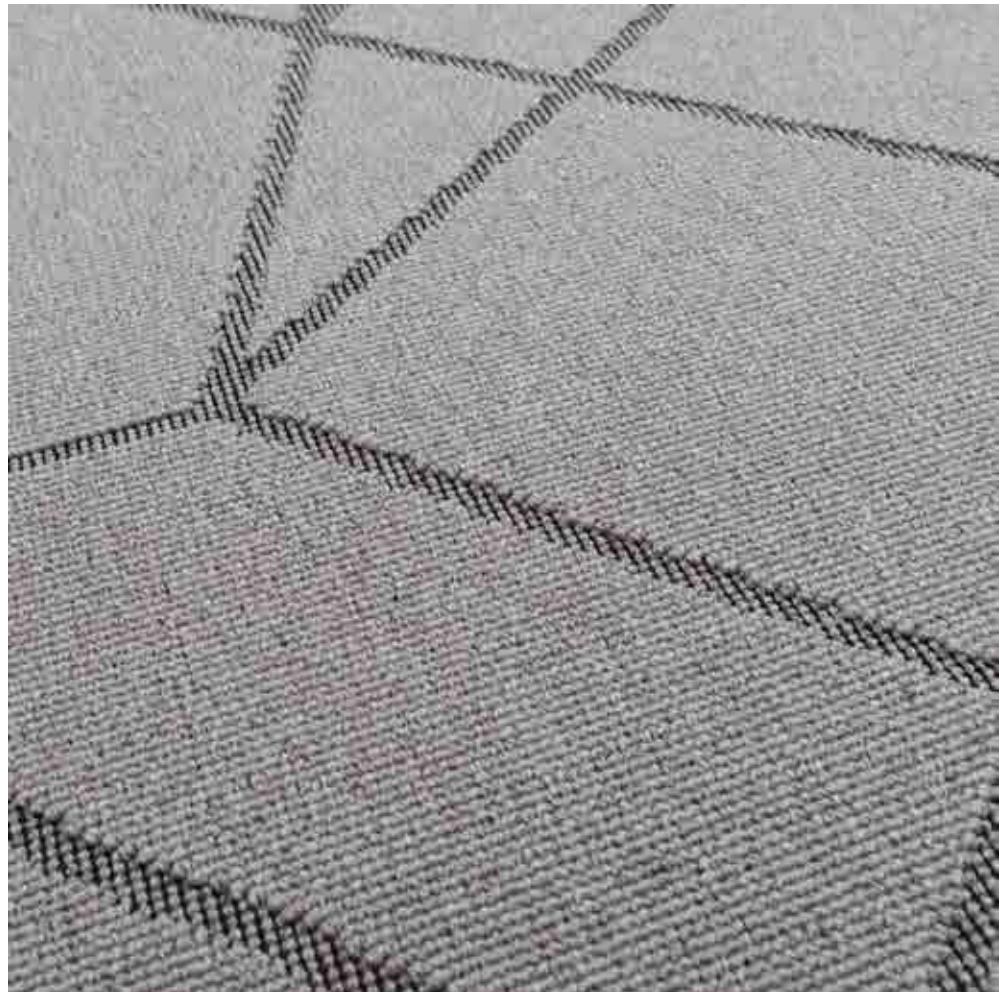

EXTREMELY DURABLE CARPET

Devoid is a woven loop construction carpet, developed specifically for the rigorous demands of high performance environments in the contract market. With 121,000 tufts per sqm, Devoid is arguably the densest Wilton weave carpet in comparable rib-construction worldwide.

Precise weaving technology enables the creation of a crisp surface texture with a unique 3D optic effect. Available in 33 colours, the perfect marling of multi-coloured yarns adds visual and textural interest to the eye-catching colour palette. These colourways allow for easy design coordination and practicality for any commercial project.

The Devoid Collection by Cadrys Contract has been engineered to ensure ease of maintenance in the harshest of environments. The carpets trilobate fibre cross section helps conceal dirt and the pigment-based, solution-dyed yarn ensures the easy removal of surface stains. It also provides outstanding fade-resistance and superior recovery from pressure marks.

*Devoid truly is the ULTIMATE mono-coloured contract carpet*
